-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-9, 11-16, 18-23, 26-29, 32-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP 57167938, GB 1476016 or JP 352102434 taken with JP 11236334 or JP 52145509.

Applicant has argued that the components of the claimed composition are not taught in the references as being extracts but it is clear from the references themselves that they are from plants making them plant extracts by definition.

Applicant argues that the examiner has not considered their argument concerning expectation of success but the fact of the matter is that all the references each teach that oridonin and lupulone are known in the art individually to be used as anti-cancer/carcinostatic agents. Thus, this argument is not understood. The references very clearly spell this out.

Applicant also argues that JP '334 teaches that "one or more than two plants or their extracts" are used as cancer inhibitors. They argue that the *Humulus lupulus* is only one of a number of extracts listed but the reference very clearly states that *Humulus lupulus* is used and can be used.

Applicant next argues that the case law cited is not appropriate for this case. The case law cited is just that, law. These cases are routinely used in the pharmaceutical arts and this case involves a plant extract which does not need FDA approval, so technically it is a natural pharmaceutical not as applicant has suggested. The plant extract art is well settled and the known treatments from these plants are well known as is evidenced by the references.
